ISSAAS 2017

International Congress and General Meeting

The International Society for Southeast Asian Agricultural Sciences was established in 1994 to strengthen cooperation among agricultural scientists in Asia, particularly Southeast Asia, and to bring together groups of professionals from many different countries with common interests in agricultural development in the region. Many countries and universities have also gained valuable experience from the practice of holding annual ISSAAS International conferences all around the region, specifically in Indonesia, Japan, Malaysia, Philippines, Thailand and Vietnam.

The Vietnam National University of Agriculture (VNUA) is honored to host the ISSAAS International Congress 2017 to be held on 14-17 October 2017. This year's congress theme is "Green Agriculture in Southeast Asia: Theories and Practices".

WELCOME TO HANOI
